FOILED

Would be Train Robbers Unable to Open the Express Safes.

Hold Up of the Great Northern Overland Near St. Cloud.

Robbers Quit the Train in the Outskirts of St. Cloud.

St. Cloud, Minn., Nov. 19.—The overland train on the Great Northern road, which is due to arrive here at 10:15 a. m., was stopped by masked men four miles west of Clear Lake and eight miles east of St. Cloud last night. The train was crowded with passengers and was running along at the usual gait. The first intimation that anything of the kind was about to be attempted was received by William Carley, the fireman. Carley was standing at the rear of the train when he turned to the coal box a revolver in his hand. The robber ordered him to stop the train or he would kill him, and told him to tell the engineer the same thing. The engineer turned and saw the robber and instantly reversed the lever.

Just as the train stopped, another masked man came on alongside the engine and, presenting a rifle, ordered the engineer and fireman to get off and uncouple the engine and baggage car from the rest of the train. The engineer did as he was ordered, and walked back with the robbers following him. They uncoupled the engine and car from the train, and were then ordered to go to the right door of the engine and ask the messenger where he kept his money. The robbers followed the engineer and fireman into the car and the messenger told them he thought that something was wrong and that he had thrown away the key to the local safe. He did not know the combination of the through safe; that was known only at Fargo.

By this time the passengers began to stick their heads out of the windows and the robbers began to shoot. This had the effect of frightening the passengers into remaining in the cars. The engineer and fireman were then ordered to get off the express car into the engine and start down the track, an order which they obeyed.

STARTED FOR ASSISTANCE. In the meantime the conductor and brakeman had become aware of the fact that the train was being held up, and the former, whose name is C. H. Craven, began to look around among the passengers for a revolver. He finally found one in the person of W. F. Breslin. These two with H. H. Stone, of Glasgow, Mont., started along the side of the train toward the engine. Before they got that far the engine and express car started up the track. The three men then started toward the balance of the train, which they found guarded by robbers, and decided to go to Clear Lake for assistance.

When they had gone about half a mile down the track they met a Northern Pacific freight. The two lines run close together at this point. The conductor signalled the freight and the freight stopped. He boarded the train and told what happened. They decided to run through to St. Cloud, the engine and express car not to stop at the scene of the hold up even if the train was signalled. When they had run past the scene of the hold up, which was by this time some distance from the spot, they stopped, and the three men started back toward the engine and express car. Before they reached it, however, the robbers had fired their shot and the engine and express car had started on.

Mr. Kersey's letter states that Lord Dunraven would be unable to get away from the coast. It is thought that the committee of three will apprise the secretary of the Royal Yacht Squadron of the situation and ask no further action until they learn definitely whether or not Lord Dunraven will come over here.

KILLED THEMSELVES.

Overcharge of Dynamite Used By Fishermen.

Port Townsend, Wash., Nov. 19.—News from Valparaiso, Chile, has been received here giving details of the explosion of a dynamite train on the coast of Chile. The train was carrying a large quantity of dynamite and was being hauled by a locomotive. The train was stopped at a point where it was to be loaded with fish. The fishermen, who were overcharged with dynamite, used the dynamite to blow up the train. The explosion killed several fishermen and destroyed the train.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment, when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without harming them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute.

SENATE

Republicans Cannot Secure the Populist Votes to Reorganize the Senate.

Senators Butler and Stewart Opposed to Action of That Kind.

They Want Silver Republicans and Democrats to Unite With Them.

Washington, Nov. 19.—(Special to The Herald.)—If the views of the Populist senators in the city are correct, the Republicans will not be able to reorganize the senate by the aid of Populist votes. The senators referred to are Marion Butler, of North Carolina, and William M. Stewart, of Nevada. In discussing this question today, Senator Stewart said: "There is a majority of silver men in the senate, and it is in earnest they will organize the senate and not allow the gold men to do it. It is rumored in newspapers that the Republicans and Democrats will distribute the offices with regard to the Populists, which being interpreted means that the gold men will combine, as usual, and take the leaves and felices, I, for one, am ready to organize the senate with the silver men. I could not under any circumstances unite with the gold men in effecting such organization, or for any other purpose. I am not certain that there are enough real silver men to organize the senate, but a division on that question will disclose how many silver men there are. I venture to affirm that no Populist list will be found in the gold ranks and this is why pretended support of the Populists. There is nothing that pretended silver men have so much as account for the snare of so-called silver men from the West against the Populist senators."

"Holy water is agreeable to the devil compared to the aversion exhibited by Senator Butler said: 'Neither party can organize the senate, and if it is organized it must be by a combination of two parties or by men in separate parties. The silver men are in a majority, that is elected as silver men, and their constituents are ready to co-operate with the silver Republicans and silver Democrats to control the organization. The Populist senators are not concerned so much about the patronage as they are about the principle. They are not interested in the question of reorganization; therefore the first and most important thing is to place silver men in control of the appropriate committees. It is vastly more important to place a senator in control of appropriate committees than for him to vote even for a free coinage bill.'

CHIEF HAZEN'S YEAR.

Government Secret Service Made 803 Arrests.

Washington, Nov. 19.—Chief Hazen, chief of the secret service of the treasury department, in his annual report, shows that during the year 803 arrests were made, with few exceptions for violations of the statutes against counterfeiting. One hundred and eighty-one persons were convicted, 119 of these pleaded guilty, 21 awaiting examination, 16 were not prosecuted, 52 were discharged by United States commissioners and 84 were acquitted. Altered and counterfeit notes, counterfeit coins, etc., were captured to the value of an aggregate face value of almost \$5,000,000. There were also captured 535 copper, steel and brass coins, postage stamps, World's fair diplomas, etc., also 41 molds for coins, besides a large quantity of crucibles, photographic outfits, machinery, etc. and a number of persons engaged in manufacturing and handling counterfeit coins shows a great increase in this branch of counterfeiting.

The Delegates Meet Tonight to Effect a Permanent Organization.

St. Paul, Nov. 20.—James J. Hill's speech was the feature of yesterday afternoon's session of the immigration convention. After the matter of nominating a vice president was referred to a committee, Mr. Hill was introduced and proceeded to speak on "The Northwest—Past, Present and Future." Mr. Hill at the outset began to discuss the advantages of Minnesota in an easy, conversational fashion, with one hand upon his hip and his eye glasses poised argumentatively between his thumb and forefinger. He spoke of the climate, seasonable and healthy; of the business interests, growing and substantial; of the agricultural resources, extensive and extending; of the schools, modern and expensive; of the iron deposits; of the people, of such character that crime has never yet been able to thrive in Minnesota, not even in the case on the Great Northern yesterday morning.

But I want to impress on this convention," he said, "that the country's greatest wealth lies in the soil, in the possibilities of the ground. Our land has done more during the period of its cultivation than land in any other locality has done in twice the time. For a few years ago, about forty years ago, the country was unbroken prairie. The growth here during that time has been the equal of any other section in the United States. Now, let us look at your advantages. You have many, a few more than most. You have good land, good timber, an abundance of mineral wealth. You have coal. Within a few miles it will be demonstrated that there is coal in Minnesota. I don't know just how much, but there is coal in Minnesota.

Mr. Hill referred to the early days of the state, when Minnesota had an immigration bureau. Land was handed over to the railways, and the speaker expressed his regret that such should have been done, but he believed that the state should take a permanent interest. He hoped that the convention would result in the appointment and sustaining of commissioners of immigration by all the states in the Northwest. He said that he had been in the country, going back to the time, in some cases more than two years ago, when he traveled with diligence and reached the borders of settlement.

Mr. Hill spoke of the effect of the panic of 1892, and from that time to the time when he took possession of the St. Paul & Pacific, at a time when, if a baby got anything more than its mother's milk or condensed milk, it got cold water, which was about all there was in the country. Arguing from the progress made in the interim, he counseled the people to take advantage of what they had, of the possibilities right here, instead of reaching after something they have not got. "If the man who is killing the pig," said Mr. Hill, "does not make a profit, then all the rest of us will be poor. We must take the country and fill it with an industrious, intelligent population."

The speaker dwelt upon the movement from the farm to the city. It was largely from the depression to get something to do. Chairman Schurmer called the convention to order today and introduced A. J. Andrews, of Winnipeg, who was permitted to close his remarks by a subject he launched into a brief description of the province of Manitoba, whose interests he represented as those of other Northwestern states.

HAYWARD

The Minneapolis Murderer Must Hang For the Gimp Murder.

The Supreme Court Sustains the Decisions at the Trial.

No More Hope Now Left For the Murderer.

St. Paul, Nov. 20.—The supreme court this morning sealed the fate of Harry Hayward by affirming the decision of the trial court in Hennepin county, and it now only remains for the governor to fix the date of execution. The court was unanimous in sustaining the conviction of Hayward, but Chief Justice Start dissents on one proposition. He holds that the testimony of Mrs. Hazelton that Miss Gimp had told her she had made an engagement with Hayward that evening was not admissible on the ground that it tended to characterize her subsequent acts and her conduct on the fatal ride soon after she made the statement. He holds that it is assigning a wrong reason for a school teacher's action and that the admission of Mrs. Hazelton's testimony should have been sustained on the ground that it was original evidence tending to corroborate that of Blitt that she did meet Hayward. The opinion is written by Justice Canby.

NORTHERN WAVE AGROUND.

On the Beach South of Sand Beach Harbor.

Sand Beach, Mich., Nov. 20.—(Special to The Herald.)—The steamer Northern Wave, from Buffalo to Duluth with 1000 tons of general merchandise, missed the entrance entering the harbor of refuge last night and went on the beach south of the harbor. Her rudder was carried and at noon she had three feet of water over her bow. The crew is still aboard. The wrecker Wales with a full outfit is on the way here from Detroit.

TWO CHILDREN BURNED.

Jealous Negroes Fire a Neighbor's House.

Chattanooga, Tenn., Nov. 20.—A special from South Pittsburg, Tenn., to the Chattanooga Times says: Early this morning a tenement house occupied by Irvin Robinson, a respectable colored laborer, was destroyed by fire. In the building were two of Robinson's children, aged 1 and 4 years respectively, and both were burned to death. Robinson and his wife escaped to safety. Much indignation exists against the negroes living near, who stood by and saw the children burned to death without effort to save them. Their brutal conduct was prompted by jealousy of Robinson's superior attainments.

ACCUSES SCHWEICHER.

Philadelphia, Nov. 20.—William A. Schoemaker, counsel for the Holms, the noted criminal, and who was held in jail on the charge of subordination of perjury, today made a statement bearing the name of the woman to whom he had been married, and who he said she had heard Pictel speak about committing suicide. He denied most emphatically the testimony of Detective Schweicher, whom he says told him he had found Mrs. Hannan in Woodbury, N. J., and that she was willing to make affidavit to what she knew.

INMAN ACCEPTS A BIG TASK.

The fourth contract of the underwriters for the release of the schooner Moonlight and Kent, ashore near Marquette, was awarded Monday, says the Chicago Inter Ocean. This time H. H. Inman, the Duluth tugman, agrees to deliver the boats at Duluth for \$500 before Feb. 1 next. In case he releases the Moonlight alone he is to receive \$100. If the underwriters so elect, they are to turn the boats over to him as full payment of his claim. Capt. Inman is confident that he will be able to release both boats within the time of the contract.

CANADIAN MISSIONARY ABUSED.

London, Nov. 20.—A dispatch from Constantinople to the Globe this afternoon confirms the report of the ill-treatment to which the Canadian missionary, Mr. Martin, has been subjected by the Turks and adds that he has been beaten and afterwards imprisoned for sixteen hours near Hadjin, in the province of Aidin.

TWO DULUTH INVENTORS.

Washington, Nov. 20.—(Special to The Herald.)—A patent for a school desk and seat was today issued to James J. Baskerville, and a patent for an apparatus for cooling and drawing beverages was issued to William A. Wagner, of Duluth.

FRENCH SAILORS COMMIT MURDER.

Bagelock, Nov. 20.—Nine sailors belonging to the French gunboat Hippo, paraded the town last evening, assaulted several people and stole liquor from various stores. Finally they accosted a police constable attached to the British legation, who after declaring himself to be a police officer, was attacked and his skull fractured by the disorderly sailors. The latter are now in irons.

TWENTY STORES BURNED.

Parselt, 1 T. Nov. 20.—This town was visited by a disastrous fire yesterday which almost wiped it out of existence. The fire started in a grocery store owned by Paul Gluckman, who is strongly suspected of applying the torch, and he was at once arrested by a United States deputy marshal. Twenty business houses were burned, the aggregate loss being about \$100,000; insurance, \$40,000.

STRENGTH

Weaker Parties Stood Little Show on the Nez Perce Reservation.

Guns or Numbers Counted in Establishing the Choice Claims.

One Bold Individual Who Stood Off a Whole Crowd.

Lewiston, Idaho, Nov. 20.—The first man to make a legal fight on the Nez Perce reservation was Stephen Hauser. He presented powers of attorney from three old soldiers, Capt. Tamblin, Col. Hamell and W. P. Human. These are promoters of the townsite of Nez Perce. Jacob Pippinger, of Leland, was the winner of an exciting race with a valuable farm for a stake. He arrived upon the land one minute after 12 o'clock. He had relays of saddle horses and rode more than forty miles over rugged trails in two hours and twenty minutes. He passed evasive neighbors and excited strangers in his mad ride, and met at a rendezvous to distribute the fine quarter section among themselves. Before the preliminaries were completed a horseman appeared from behind the knoll with a rifle and revolver. The stranger looked much like an ideal desperado, and when he came and waved his hand and said: "This land is claimed. If any of you set foot upon it I'll pump you full of holes."

Word comes from Cottonwood of a demonstration by an organized company that drove weaker parties from land that was claimed by both parties. The stranger party threatened to hang a man whom they called a claim jumper. The Indians do not take kindly to the idea of being outnumbered by the whites. Many of them are following whites around, and the presence of natives here has occasioned much uneasiness on the part of strangers. There is no reason, however, for distrusting the Nez Perces. There was much excitement over the selection of the townsite of Nez Perce. A public meeting was held by 200 men, who desired to make entries on town lots. They refused to accede to the demands of the original promoters of the scheme, and this will perhaps result in a rival town.

HAYWOOD'S TRUST.

Milwaukee Mill Retires From a Margin Combine.

Minneapolis, Nov. 20.—A special from Milwaukee, Wis., says that as a result of the sudden decision of the Duluth Lumber Mills company, of Milwaukee, Paist, Kraus & Co., proprietors, the national combine of spring wheat millers has received a blow from which it cannot recover. The firm has withdrawn from the combine and will, from today on, quote its own prices and transact all its flour business regardless of the combination. After a year's work by J. H. Haywood and others, a combine of millers of spring wheat was formed for the regulation of the output and maintenance of prices. This association was formed some months ago, after repeated meetings of the millers at Minneapolis, Milwaukee and Chicago, all of which were secret. Mr. Haywood was made general manager and headquarters were established at Minneapolis. It has been his official duty to keep all the members "in line," regulate the difference in freight rates to the seaboard and elsewhere and see that the agreement which was somewhat peculiar was carried out by all the members. The combine is said to have worked all right for certain large mills in Minneapolis, but to the detriment of others, including those in Milwaukee.

WILD MAN DEAD.

Montana Hermit Who Lived as a Barbarian.

Butte, Mont., Nov. 20.—Pettling, the wild man of the Wise river mountains, has been found dead in his mountain retreat. Pettling came to Montana during the early period of the war, and has ever since lived alone among the wild animals of the Wise river mountains. Living in a cave, he was known to the Indians as a "wild man." He was a white man, but his face was covered with a thick growth of hair, and the hair from his head and beard reaching below his waist. Nothing has ever been heard regarding his life before coming to Montana, though several stories are told concerning his reasons for retiring from civilization. Pettling had knowledge of a fabulously rich gold vein, but never disclosed its location, though he gave to a party of hunters some quartz that assayed \$50,000 to the ton.

FACED A GUN.

Ed Corrigan's Bluff Not Strong Enough.

San Francisco, Nov. 20.—T. H. Williams, president of the California Jockey club, and lessee of the Bay District track, encountered Edward Corrigan, the Chicago turfman, in the Palace hotel last night and the result was a dispute over racing matters. Just what led to a declaration of hostilities is not known, but the dispute was a bitter one. Corrigan, who is a well-known figure in the racing world, was seen with a revolver in his hand, and the two men were seen to be in a heated argument. The dispute was not settled until the next morning, when the two men were seen to be in a friendly conversation.

PERCE

Powers Satisfied That the Sultan Will Restore It.

It is Settled They Will Not Invade the Empire.

The Armenian Catholics Are Advised to Lay Down Arms.

Constantinople, Nov. 20.—A dispatch received here from Tiflis, Russian Caucasus, says that the Armenian Catholics have received a reply to the communication recently sent to the Russian ambassador here, M. Xelidoff. It is as follows: "The Armenians of Constantinople are now reassured. They are threatened with no danger. In the provinces, however, there are regrettable conflicts, which in most cases are caused by Armenian fanaticism. The result is terrible revenge upon the part of the Turks in the shape of horrible massacres of Christians. The sultan has sanctioned a scheme for reform as submitted by the three great powers, and the Armenians are now proceeding to carry them out. To this end it is necessary that leaders of the party should be removed, and the sultan has decided to remove them. The Armenians are now proceeding to carry them out. To this end it is necessary that leaders of the party should be removed, and the sultan has decided to remove them."

There is no doubt that pressure brought to bear upon the sultan has resulted in a well-considered plan. The sultan has decided to remove the leaders of the party, and the Armenians are now proceeding to carry them out. To this end it is necessary that leaders of the party should be removed, and the sultan has decided to remove them.

A HEALTH SECRET.

And What Some Reliable People Have to Say About It.

"How can I increase my weight, prevent indigestion, and build up my system?" You have probably asked yourself this question a great many times—most men do. Many of your friends have had this question answered to their satisfaction, and it is a good thing to know. Some of the greatest physicians in the world have answered it, and they tell us that the best way to keep strong and healthy is to use a pure, reliable stimulant. Something is needed to put the blood in healthy motion, invigorate the body, promote the appetite, and enable the food to be properly digested. This is what is required, and the next question is, what is the best thing to take? Some light on this interesting subject is afforded by the following opinions of some people who have been benefited by its use.

Mr. E. C. Avilla, of Brooklyn, N. Y., says: "Having suffered for several years from nervous headaches, and being greatly debilitated, I was advised to take Hood's Sarsaparilla. I have now used several bottles with splendid results, having gained strength and increased in weight seventeen pounds by its use in the past two years."

Mr. Pierce, of Frankfort, Ind., says: "I have been suffering from indigestion, loss of appetite, and general debility, and I have now used several bottles of Hood's Sarsaparilla with splendid results, having gained strength and increased in weight seventeen pounds by its use in the past two years."

GROSS DISCRIMINATION.

The Herald's telegraphic news was
somewhat curtailed yesterday owing
to a storm disorganizing the Associated
Press special wire from Chicago to this
office. But while this accident neces-
sarily reduced the usual amount of out-
side news received by The Herald, it
was still further curtailed by the
strange and inexplicable action of the
Western Union Telegraph company,
which had a number of wires in opera-
tion between Duluth and Chicago, and
failed to transmit to The Herald the
messages to this paper filed at its Chi-
cago office. As early as 9 o'clock yes-
terday morning, the Associated Press
filed at the Western Union office in
Chicago dispatches addressed to The
Herald, and filings were subsequently
made during the day in bulletins and
condensed form. Up to this writing not
one of these dispatches has been re-
ceived at The Herald office.

It would be interesting to know by
what right the Western Union Tele-
graph company thus practically refused
to transmit messages that are filed at
one of its principal offices. Its wires
were in good condition and it cannot
offer any excuse on that account. Nor
can any other valid reason be assigned
for this corporation, which holds many
valuable franchises from the public,
for neglecting and refusing to serve
the public. The Herald learns that
other newspapers were treated in a sim-
ilar way yesterday by the Western Uni-
on, and it is not unlikely that some
of them may conclude to take this mat-
ter into the courts and enter suit
against the company for actual and
exemplary damages. If the Western
Union intends to discriminate against
newspapers or individuals in the con-
duct of its business, some action must
be taken to teach it that its customers
have rights which must be respected.
One of the strong objections raised
against government ownership of the
telegraph system has been the possi-
bility that the public party might
might use it to the disadvantage and
injury of its opponents. When we find
that one of the telegraph companies
now uses its system to the detriment
of some people, by failing to transmit
messages filed with it, this objection to
government ownership and control van-
ishes entirely.

The Western Union yesterday prac-
ticed gross discrimination in the han-
dling of its business. No business man
can tell when he may next be the vic-
tim of its discrimination and may have
his business seriously injured or ruined
by this powerful corporation. The coming
session of congress should deal with this
important matter, so that it will be im-
possible for the Western Union or any
other corporation holding franchises to
practice discrimination against any por-
tion of the public in the operation of
those franchises.

THE HINES RAILROAD.

Duluth should take an active interest in
the construction of the Duluth & North
Dakota railroad, more familiarly known
as the Hines road. The meetings yester-
day were not well attended because many
of the leading business men, who would
naturally take an interest in the raising
of funds for the carrying on of the enter-
prise, were in St. Paul attending the in-
ternational convention. According to the
statement made by President Hines, a
committee has been for grading a long
extension into Dakota from Thief River
Falls, and west of Drayton forty miles
have been graded. Mr. Hines' object in
visiting Duluth this time is to secure
funds for getting out ties and clearing
right-of-way for that part of the road be-
tween Deer River, the end of the Du-
luth & Winnipeg and Thief River Falls,
a distance of 118 miles. The Duluth &
Winnipeg has seventy-six miles of right-
of-way cleared to Lake Winnepigoshish,
and has signified a willingness to lay
steel thereon if the Duluth & North Du-

kota will build the remaining ninety
miles. Mr. Hines wants to get across the
this winter, and also to secure right-of-
way across the Red Lake reservation
from congress, and the expense during
the winter is estimated at \$20,000.

To raise this amount is the object of Mr.
Hines' visit here, and every person who
is interested in the progress of Duluth
should aid him in accomplishing this pur-
pose. The benefits of such a road to Du-
luth can hardly be overestimated. In the
last issue of the little paper which Mr.
Hines is publishing in the interest of the
proposed road he points out that the chief
reason why the farmers of the Northwest
do not prosper as they should is found in
the high freight rates. "Just think of it,"
he says. "It costs the farmers in North
Dakota more than \$5,000,000 just to ship
their wheat alone over into Minnesota. It
costs more to ship our wheat to Duluth
than it costs to ship it from Duluth to
Liverpool, and if wheat was all we had to
ship it wouldn't be so hard, but the fact
is we have got to ship everything we
raise to an Eastern market, and every-
thing we buy we must buy in an Eastern
market and pay an outrageous freight
rate both ways. It costs from \$75 to \$120
to ship a car of grain to Duluth or Min-
neapolis, and \$100 to \$150 to ship a car of
lumber, machinery or anything else from
there here. For instance, the little town
of Warren is 245 miles from Duluth, and
yet they pay over \$300,000 freight in less
than twelve months, and remember there
are two other towns within ten miles of
Warren. They pay about \$200,000 more,
and there are dozens of little towns in
North Dakota that pay from \$100,000 to
\$300,000 a year in freight."

Concerning the cost of building the
road, he says: "We can build and equip
this 500 miles of railroad for \$8000 per
mile. Two thousand dollars per mile of
this we can do ourselves in work and
take our pay in stock, and \$1000 more per
mile we can raise in cash and take stock,
and none of us will feel any poorer for it.
This will leave the grade and ties ready
for the rails. Thus it will be the easiest
thing in the world to bond this for \$8000
per mile for rails and rolling stock. Just
think of it. The railroads in the North-
west are bonded for \$2,000 per mile. Here
is a road that is 100 miles shorter than
any to Duluth and can bring all our lum-
ber and wood on less than one-half
the haul we get it now. This road will
be worth \$50,000 per mile just as easily as
the others are worth \$20,000 per mile, and
yet all the money we want to bond it for
is \$6000 per mile. We have not been look-
ing for money men, but they have been
looking for us, and already five different
parties are wanting to buy our bonds."
Mr. Hines has thoroughly aroused the
farmers along the route of the proposed
road and they are enthusiastic over the
scheme and ready to donate their services
in getting out ties and grading and to
donate the land necessary for the right-
of-way. They are determined that this
road shall be built. But they must have
some financial assistance, and it is but
natural that they should look to Duluth
for this aid, because this city will be the
eastern terminus of the line and will be
greatly benefited by its construction. Mr.
Hines should not go away from Duluth
empty-handed. This city cannot afford
to turn the cold shoulder to the request
which the farmers of the Northwest have
made. They are anxious to be freed from
the high freight rates of the railroads
and the business interests of the Minne-
apolis, and they are looking to Duluth for
their salvation. It will pay to help them.
It will pay many times over in the
amount of business brought here, while
lost in such a railroad will be worth
several times the amount invested. As
a business proposition Mr. Hines' scheme
will stand close inspection.

ABOLISH THE COMMISSION.

Maj. Baldwin, as chairman of the
Chicagoese Italian commission, has a
letter in the last issue of the Mississippi
Valley Lumberman, in which he re-
plies to that paper's criticisms of the
work of the commission, and resents the
insinuation that the commission is not
doing anything but killing time in order
to hold its job. He says that many
of the allotments have been made as
provided by the treaties, and that the
commission has done its best under the
circumstances. He cannot see why the
Lumberman and the Republican
press of the state should "jump on" him
as he has.

THE LUMBERMAN REPEATS ITS CRITICISMS.

The Lumberman repeats its criticisms
of the work of the commission, and in
reply to Maj. Baldwin's letter, says that
the commission has been at work six
months, and no one knows when it will
be through. It is held that the reser-
vations are as far from being opened
as ever. The Lumberman's contem-
pions are correct. The commission has
done practically nothing, and there is no
prospect that it will ever be able to
do anything. The Lumberman, however,
anything except draw salaries from the
government. There is no valid reason
for continuing its existence, and con-
gress should abolish it. Congress-
man Towne should introduce a bill at
the coming session to repeal the act
creating the commission and put an
end to the farce.

MARTHA BURNS THOMAS, A GREAT

granddaughter of Robert Burns, now
residing in Chicago, recently wrote for
the "woman's number" of a Chicago pa-
per this incident: "When I was a
child I heard the daughter of a friend
of the poet tell my mother, Mrs. Ever-
ett, an incident which I have never for-
gotten. Burns, returning home late
one wet, stormy night, found a poor
half-draft woman that used to beg about
Dumfries lying drenched with rain
near his doorstep. He told his wife,
"Bonnie Jean," that he could not leave her
there, and carried her in and gave
her shelter under his roof for the night."

Discovery of the Kaleidoscope
Eclipsed by a Chicago
Man.

There will be at least one happy wo-
man in Pittsburgh on Christmas day.
Mrs. M. Morgan, of Carson street, has
something good in store for her. Her
husband took home a sample of Edison
one day last week and has since decided to
make his wife a present of the largest
box of Edison he can find. He says he
will use it right along," he said, "but
how delighted she will be with a great
big box of it."

Mr. Morgan works in the Monongahela
iron works, he wears flannel shirts
and they get very soiled and he says
he has always complained of how hard
they were to get soft and clean. He
said: "I have taken many things home
from the store, but I never saw anything
like this. It is just what I need. I have
been using it for some time and it is
just what I need. I have been using it
for some time and it is just what I need."

The discovery of the Kaleidoscope isn't
in it with the discovery of Edison, says
Mr. Morgan. He says that he has been
using it for some time and it is just
what he needs. He says that he has
been using it for some time and it is
just what he needs. He says that he has
been using it for some time and it is
just what he needs.

EDISON OUTDONE.

Discovery of the Kaleidoscope
Eclipsed by a Chicago
Man.

There will be at least one happy wo-
man in Pittsburgh on Christmas day.
Mrs. M. Morgan, of Carson street, has
something good in store for her. Her
husband took home a sample of Edison
one day last week and has since decided to
make his wife a present of the largest
box of Edison he can find. He says he
will use it right along," he said, "but
how delighted she will be with a great
big box of it."

Mr. Morgan works in the Monongahela
iron works, he wears flannel shirts
and they get very soiled and he says
he has always complained of how hard
they were to get soft and clean. He
said: "I have taken many things home
from the store, but I never saw anything
like this. It is just what I need. I have
been using it for some time and it is
just what I need. I have been using it
for some time and it is just what I need."

The discovery of the Kaleidoscope isn't
in it with the discovery of Edison, says
Mr. Morgan. He says that he has been
using it for some time and it is just
what he needs. He says that he has
been using it for some time and it is
just what he needs. He says that he has
been using it for some time and it is
just what he needs.

PROGRAM

Events and Prizes For the Annual Bonspiel Held in January.

First Contest Will Be For the Duluth Jobbers Union Trophy.

Pfister Trophy Event is an Interesting One—Eight Contests Arranged.

The program for the fourth annual bonspiel of the Northwestern Curling association, which is to be held in Duluth, week of Jan. 12, has been prepared and it will be in the hands of the printers within a few days. The program is quite a lengthy one, and it will fill the hours of that week completely.

The first and principal event is for the Duluth jobbers union trophy, valued at \$500, presented by the Duluth jobbers union. It will be accompanied as first prize by four gold medals valued at \$100, presented by friends in Duluth. The second prize will be four gold medals valued at \$80; the third prize four curling design scarf pins valued at \$40; and the fourth prize four curling design lapel buttons valued at \$25. All these prizes are presented by friends in Duluth.

This trophy is to be competed for annually at the bonspiels of the Northwestern Curling association and the contests are open to all ranks affiliating with regularly organized curling clubs in the United States or Canada. The game is to consist of fifteen ends.

THE SECOND EVENT. The second event is for the Pfister trophy, valued at \$200, presented by Charles F. Pfister, of Milwaukee, and for four gold medals valued at \$100, presented by friends in Duluth. The second, third and fourth prizes are similar to those in the first event, presented by friends in Duluth.

The second prize is to go to the "runner up," that is the rink defeated by the winners of the first prize in the final round; the third prize goes to the rink defeated by the runner in the semi-final round; and the fourth prize goes to the rink defeated by the winners of the second prize in the semi-final round.

Pfister trophy is to be competed for annually, and is to be the property of the rink winning the majority of times in six bonspiels. It was first played for last winter at Milwaukee, where it was won by the Waupaca, Wis., rink, S. S. Chandler rink.

The third event is for the St. Paul jobbers' union trophy, valued at \$250, presented by the St. Paul jobbers union, and four gold medals, valued at \$100, presented by friends in Duluth. The second, third and fourth prizes are the same as in the two preceding events, and the same rules are to be in the contest for the Duluth jobbers' union trophy. This trophy was won in 1931-32 by the Granite club, of Winnipeg, in 1932-33 by the Assiniboine club, of Winnipeg, again by the Granite club in 1933-34, and in 1934-35 by the St. Paul club.

INTERNATIONAL TROPHY. The fourth event is for the Walker international trophy, presented by Hiram Walker & Sons, of Walkerville, Ont., valued at \$300, and four gold medals, valued at \$100, presented by friends in Duluth. The Canadians won this trophy in 1932-33, and the Americans in 1933-34. The trophy is to be won by the rink winning the majority of times in six bonspiels. It was first played for last winter at Milwaukee, where it was won by the Waupaca, Wis., rink, S. S. Chandler rink.

The fifth event is for the George F. Hall diamond medal trophy, valued at \$200, presented by George F. Hall, of St. Paul, and four gold medals, valued at \$100, presented by friends in Duluth. The second prize is four gold medals, valued at \$80, and the third, four curling design lapel buttons, valued at \$25, presented by friends in Duluth.

There are to be fifteen ends to this game, as in each of the preceding contests. This trophy has been played for three times, and each time has been won by rinks from the Granite club, of Winnipeg, and twice it has been by the rink skipped by T. Kelly.

The sixth event is for four gold medals, valued at \$100, and four curling design lapel buttons, valued at \$25. It is open to all ranks, and it has been played for three times, and each time has been won by rinks from the Granite club, of Winnipeg, and twice it has been by the rink skipped by T. Kelly.

THE CONSOLATION MATCH. The seventh event is the consolation match, for four pairs of redstone curling stones, valued at \$100, and it is open to all ranks defeated in the first drawing of the first and second events.

The eighth and last event is the point contest. The first prize is a gold medal, valued at \$40, for the player making the best score, and a curling design scarf pins, valued at \$15 each, will be awarded.

The ninth event is for four gold medals, valued at \$100, and continues thereafter at 9 a. m., 2:30 and 8 p. m. each day. No substitutes will be allowed, each rink playing as it is entered. The rules of the Northwestern Curling association govern all contests.

MINNEAPOLIS ORDERED TO TURKEY. Washington, Nov. 20.—The United States steamship Minneapolis has been ordered to join the European squadron immediately, doubtless on account of the Turkish situation. She is in American waters now and it will take several days to fit her out.

"Men Must Work And Women Must Weep."

It was a great poet who penned the above lines, but he was very much mistaken. He was wrong in saying that women MUST weep. Women were never intended to pass their lives in misery. Why should they weep?

WOMEN'S WEAKNESSES are the curse of womanhood. They have wrung tears from many a wife and mother. What a pathetic story could be told of the sufferings caused by sick headaches, backaches, miserable tired feelings and the thousand and one painful symptoms which so many women endure. But it is all unnecessary.

THEY CAN BE CURED. Thousands of happy women testify to this fact. Ask them and they will tell you how much they owe to the benefit received from taking Warner's Safe Cure, the best and most reliable remedy for all ailments of womanhood. As a means of relieving and curing kidney, bladder and female troubles and even the dread Bright's disease itself, this great Safe Cure has never been equalled. A short trial will speedily prove what it can do for weak, weary women who need help.

SWAMPY

Full Text of the Claim By the State of Section Thirty.

The General Land Office Asked to Order an Early Inquiry.

Probability That a Hearing Will Be Held in Duluth Soon.

Washington, Nov. 21.—(Special to The Herald.)—In the swampy land case, in which the state of Minnesota has presented a claim to three forty-acre tracts, on the ground that they are swampy land, Commissioner Lamoreux has rendered a decision to the effect that the state of Minnesota was entitled to be heard and to have an opportunity to prove the fact that the land is swampy land, and accordingly made order that all proceedings connected with any entries affecting the land should be suspended until the right of the state should be determined. The matter of fixing the time and place for the taking of evidence as to the character of the land will be set when the case comes up in its regular order, which will be within a week or ten days. It is not improbable that a special agent will be sent to Minnesota to take testimony in the matter, but if this is done, doubtless the commissioner will direct the register and receiver of the land office at Duluth to proceed to order a hearing and take such testimony as may be offered by all persons interested in the land.

The full text of the application for a hearing presented by Mr. Judge, representing the state, is as follows: The application being the same as to each forty acres, except as to the description of the land.

Washington, D. C., Nov. 18, 1895. Honorable Commissioner of General Land Office, Washington, D. C.—Sir: Under and by virtue of the act of congress of the United States, approved Sept. 28, 1850, entitled "an act to enable the state of Arkansas and other states to reclaim the swamp lands within their limits," as extended by the act of Minnesota and Oregon by the act of said congress of March 12, 1860, the state of Minnesota acquired title, in fee, to all of the public lands of the United States within the limits of the state, the greater part of each tract of which was wet and overgrown land, and thereby unfit for cultivation.

By the provision of the aforesaid act of congress, there was imposed upon the honorable secretary of the interior the duty of certifying to the state of Minnesota the lands of the character described, to which the state became entitled under those acts for tract of land in the state of Minnesota, described, according to the United States government survey thereof, as lot thirty (30), in township thirty (30), in range eleven (11), west of the fourth principal meridian, in the district of public lands of the United States, subject to entry at Duluth, Minn., and containing, according to such survey, forty (40) acres, more or less, is, and was that the state had never before acquired title to this land as against the various claimants, said:

"The congressional grant of swamp lands was a present grant and given title to the borders of the state, the greater part of which was wet and overgrown land, and thereby unfit for cultivation, to the extent of an actual two-thirds part of the whole."

So far as the records of the department of the interior disclose, no certification of this land has ever been made by the honorable secretary of the interior, in whole or in part, has ever been made by the department, or by the honorable secretary of the interior, and the state of Minnesota, has never heretofore submitted any evidence to establish or show the swampy character of the land; and no claim of the state of Minnesota has ever been rejected or considered by the department.

At the present time there does not seem to be before your office any evidence to the effect that the land is swampy land, and accordingly made order that all proceedings connected with any entries affecting the land should be suspended until the right of the state should be determined.

It is true that upon the official plat of the government survey of the township mentioned, this land is not designated as "swamp," while the other forty-acre tracts, in the same section, are so designated, and were accordingly listed to the state as such; but the records of your office will show also, upon evidence admitted, as to the true character of these tracts so listed, that the state of Minnesota was entitled to be heard and to have an opportunity to prove the fact that the land is swampy land, and accordingly made order that all proceedings connected with any entries affecting the land should be suspended until the right of the state should be determined.

DANGER

The Powers Fear Further Massacres at Aleppo and Marash.

Notorious Bahri Pasha Restored to Power by the Sultan.

He Provoked the Cruelties at Van While Governor There.

(Copyrighted 1895 by the Associated Press.)

Constantinople, Nov. 21.—Matters political do not look so bright today as they did yesterday. The professed termination of the sultan to set on foot a further jarring has occurred, and it is now once more Bahri Pasha who is the disturbing element. This notorious official made himself so conspicuous by his cruelty to Armenians and the maltreatment of his district when governor of Van, that the British ambassador, Sir Philip Currie, insisted upon his removal. After considerable correspondence on the subject, plain evidence of the pasha's unfitness for his position having been furnished to the sultan, the latter removed the pasha.

Bahri, however, brought up strong influence to bear upon Abdul Hamid, protested his innocence of the charges brought against him, claimed that his removal was brought about by the intrigues of the Armenians, and eventually he was not only reinstated but was decorated with the Order of the Osmanieh and complimented upon his efforts to suppress disorder.

Soon afterwards it was rumored that Bahri Pasha was to be appointed to command the large force of Turkish troops being concentrated at Marash for a movement upon Zetoun, which is held by the Armenians. This rumor was quickly dispelled, and it was learned that the plan was abandoned. If indeed it had been formed.

Now, however, the storm has burst again, for Bahri Pasha has been appointed military governor of Aleppo. It is said that he will be almost impossible to prevent him from pursuing the same tactics at Aleppo that he pursued at Van. The news of Bahri Pasha's appointment to the military command of Aleppo, the representative of the government held a meeting. The result was that they cannot answer for the consequences which will ensue should the Armenians of Zetoun be massacred after their surrender, which the Armenian papers at the instigation of Beyrout representatives of the powers, is endeavoring to bring about in order to prevent further bloodshed.

Aleppo is situated about seventy-five miles distant from Marash, which is the capital of the Vilayet of Haleb, in which both Marash and Zetoun are situated. It will thus be seen that while the sultan, alarmed at the disapproval which the rumor of Bahri Pasha's appointment to the command of Aleppo has caused, has refrained from confirming it, the military command of Aleppo will give him control over the commander of the Turkish troops in the district.

A dispatch received here from Aleppo says that the greatest alarm and excitement is being caused by the rumor that the military command of Aleppo will give him control over the commander of the Turkish troops in the district.

WASH GOODS ...DEPT...

Before placing our spring orders in this department we shall make strenuous efforts to reduce this stock. We have now on hand the largest variety of washable fabrics in the city and bought at hard times prices. Everybody knows, or should know, that cotton merchandise has advanced steadily for the last three months, and, with the prospects of a still further advance in view, we would advise our patrons to take advantage of this great sale for 1895.

This Will be a General
Cleaning up Sale...

NOTICE OF MORTGAGE FORECLOSURE SALE.—

Book fifty-three (53) of mortgages, on page seventy-six (76), which said mortgage was thereafter duly assigned by the said Justin Zuger, mortgagor, to Albert L. Orlean by deed of assignment, dated the eighth (8th) day of October, A. D. 1891, and recorded in the office of the register of deeds in and for the county of

And whereas such default consists in the non-payment of the principal and interest secured by and covenanted to be paid, in and by the said mortgage, and there is claimed to be due and there is threatened payment of the debt of this

And whereas no proceeding or action has been instituted at law or otherwise to recover the debt secured by said mortgage or any part thereof.

Now therefore, notice is hereby given that by virtue of a power of sale contained in said mortgage and of the statute in such case made and provided, the

front door of the district court house of said county, in the city of Duluth, St. Louis County, Minnesota, on the 13th day of March (with day of December, A. D. 1915), and the said mortgagee has paid to the said assignor the sum of \$1000.00 to satisfy the amount so advanced by the said assignor, and shall then be due upon the said mortgage the sum of \$1000.00, with interest and disbursements of the sale, and six per cent (6%) per annum, to be capitalized in the said mortgage in case of foreclosure.

WEST END

Funeral of Ald. French From Oneota Church Yesterday Afternoon.

City Officials and Members of the Council Were in Attendance.

Touching Sermons By Rev. R. H. Craig and Rev. L. F. Merritt.

The sentiment of giving honor to whom honor is due, was fully exemplified at the funeral services of the late Alderman L. French at the Oneota Methodist church yesterday afternoon. Foremost to pay respects to the deceased were the mayor, city officials and aldermen, who attended in a body. Among the floral decorations were a beautiful anchor, a tribute from the city officials, and a lovely bed of roses surrounding the words "Council" from the aldermen.

The regular church choir opened the services by singing "Go Bury Thy Sorrow," and a prayer by Rev. Mr. Thompson, former pastor of the church, followed the reading of Scripture by the pastor. Rev. R. H. Craig, preached an eloquent and impressive sermon, choosing for his subject, "Comfort For Those Who Mourn." He gave reasons why we should not mourn as those who have no hope. One was that death does not touch the real being of the Christian, but only his physical nature. The text refers to death as a sleep and the speaker drew an analogy between the death of a Christian and sleep. Another reason for not mourning over death arises from the thought that death does not destroy our spiritual possessions for the real possessions of good men follow them into the tomb. The third reason is that death does not destroy the good influence left behind the departed. Poets sing to us and preachers implore us to live for centuries. Numerous illustrations of this thought were drawn by the speaker. Another reason given for laying aside our mourning was found in the fact that death does not destroy the real life within between the living and the dead. We have the hope of going to our friends and meeting the good and great of all climes and all ages.

After the sermon Rev. L. F. Merritt, the former pastor, made a few remarks. Both speakers referred to the deceased in the highest terms as a husband, father, friend and neighbor. They also mentioned his integrity as a public servant.

After the church services the body was taken to Forest Hill cemetery. The pallbearers were: W. F. Markus, of Duluth; Samuel J. John and William Dwyer, of Walden, Minn.; and Herbert J. and Sampson Dwyer, Jr., of Staples, Minn.

WEST DULUTH BUREAU. The ladies of the Macabees gave a pleasant dancing party at A. O. U. W. hall last evening in honor of Mrs. L. S. Gibson, who expects to leave the city shortly.

W. F. Boettcher left today for Washington on business with the patent office. He has a number of inventions for which he has made applications.

Miss Margaret Brown, of Briggsville, Wis., is visiting her brother, Mr. L. S. Brown, of the Phillips hotel.

Mrs. W. R. Carlin left yesterday for Minnesota, Wis., where she will make a six weeks' visit.

The Young People's society, of the Congregational church, have selected the following officers for the coming year: President, Carl R. Boerner; vice president, Mary Hovv; secretary, C. W. Town; treasurer, Miss Hettie.

SUPPOSED EMPREZZER. Port Arthur, Ont., Nov. 22.—A young man, who has been passing here as the heir of a five millionaire and passing under the name of John Thompson, was arrested today on the strength of a telegram from London, Ont. Thompson is alleged to be identical with the man who stole \$50,000 from the Traders' bank at Stratford, Ont. After the robbery Patterson was traced to Chicago, thence to Duluth and Port Arthur.

TO REDUCE FLASH. Workmen in the large cities middle-aged women through the gymnasium and physical culture club, learn how to reduce the "too abundant" flesh and keep off the rheumatism which is often an accompaniment. The woman who does her own housework has most of her muscles called into exercise every day, and the danger with her is that they over-exercise, which much relief can be received by adopting every night after hand labor with the following expensive motion: Two ounces spring ammonia, one-half ounce cupful, one cup alcohol, one quart rain water. The woman whose face and throat are thin and tremble the thinness by frequent bathing in cold water, and after retiring rubbing in some good cream. In rubbing the face the strokes should be rubbed against, so as to rub them out, and it is as much in the rubbing as in the cream. A nice bit of soft white flannel, rubbed several times daily over the face, will be beneficial, and she whose double chin detracts from her good looks can, by judicious rubbing downwards, get rid of the superfluous. Above all, let the woman who desires to keep her youth and her beauty cultivate a sweet disposition and her intellect at the same time.

AN APPROPRIATE ADOL. Atlanta, Ga., Nov. 22.—A Confederate veteran from the rural district stood before a bronze bust of Robert E. Lee in the Woman's building at the exposition. "Well, well," he exclaimed, "if here ain't Gen. Lee, an' jest like him, too. I've seen him many a many a time, but—bless my soul, when they turned old Yankee's hain't gone an' made a nigger of him."

STRONGER

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that the feeding shall be regular and right. While he is doing this it is likely as not that he is himself suffering from some disease or disorder.

That is the principle on which Doctor Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, digestion strong, assimilation perfect. It brings rusty, virile health. It builds up solid, whole-some flesh (not fat) when, from any cause, reduced below the healthy standard.

Wheat Started Out Rather Easy This Morning But Became Firmer.

Good Taking For Export at New York Caused Some Strength.

Receipts at Primary Points Over Eleven Thousand Bushels.

Wheat opened easier today, owing to lower quotations from Liverpool as the result of the decline on this side yesterday. The closing prices, however, reported an advance of 1/4. London stated that wheat on passage was 3/4 higher and more active at the lower prices, while at Paris wheat was 1/4 centimes lower. New York reported a little buying on foreign orders, and this had the effect of inducing a little strength into the market. There was good buying at Chicago, and the market was 1/4 higher for wheat at 25¢. The market was quiet steady and closed firmer on the export market. The receipts at the Western primary points today aggregated 11,082 bushels, while the shipments were 8,047 bushels. There were 49 cars against 33 on the corresponding date last year. Receipts at Duluth were 3,730 bushels, but the shipments were heavy, aggregating 5,714 bushels. There was not much speculative trading on the Duluth market. One deal in December was made early at 25¢. A few local buyers again to the 30¢ advanced, and the market was 1/4 higher. The market was quiet steady and closed firmer on the export market. LINDRUP

Judge Nelson Decides Its Seizure Was Not in Open Waters.

Minnesota Court Has No Jurisdiction and the Libel is Dismissed.

Marshal Gets a Little Touching Up For the Return He Made.

Judge Nelson decided the case in admiralty of B. B. Inman vs. Steam Tug Lindrup. The tug was seized on July 15, 1894, after a long chase down the lake. According to the marshal's return, it was seized "in the open waters of Lake Superior about 3000 feet from the pier at Sault Ste. Marie, Mich." Judge Nelson's decision says: "The St. Mary's river at Sault Ste. Marie forms the common boundary between the state of Michigan and the Dominion of Canada, so that a point 3000 feet from the pier where the vessel was seized, in fact, may be within the territorial limits of either Michigan or Canada."

The question of jurisdiction, Judge Nelson says, is the only one necessary to examine. This is the locality where the vessel was seized which must determine the jurisdiction. The claim is made that Judge Williams settled this, but Judge Nelson finds that he did not pass upon the question now presented. He did not expressly hold that the point where the tug was seized was within the territorial limits of the jurisdiction of the district court of Minnesota, but only that the open waters of Lake Superior were within its jurisdiction.

"The supposed difficulty in this case," says Judge Nelson, "has arisen from the fact that the marshal, in making a return that the tug in obedience to the monition, seized in addition to the place where he made the seizure was within the open waters of Lake Superior, which statement was a conclusion that the marshal was not authorized to make, and prevent the claimant from contesting the fact thus appearing in the return. Manifestly it would be unjust to hold that a return not necessary to be made, in respect to the place of seizure, could give the court jurisdiction and leave the claimant remediless, except by suit against the marshal. The court decides the question of jurisdiction and not the marshal. The duty of the latter is to obey the monition, and he has no power to preclude the examination of a jurisdictional question by an untrue statement in his return."

The libel is dismissed for want of jurisdiction.

The tug was seized by Deputy United States Marshal Frank Cutting. The owners may now bring an action to damages against the marshal, who at the time was J. Adam Eddy. He is probably protected by an indemnifying bond. The tug is still in the marshal's hands. John L. Sorenson was the owner.

The Floor Flew Up.

J. N. Cushman appeared at the Central station last night with a black and blue face and entered a plea that he had been knocked down by a spittoon in Wagoner's saloon on Lake street. He was robbed of his watch and coat. Officer Harry Miller was put on the trail and succeeded in finding out the true facts in the case.

It appeared that Cushman had looked upon divers divers of liquor companies with the regular habits and wound up in the fun by presenting his new-found friends with a bottle of champagne. The champagne was placed in a watch which was handed to the bartender. Then in showing the gentlemen the new champagne, the bartender and floor flew up and struck his face making serious dents.

The valuables were held for safe keeping at the station while Cushman went in search of court plaster and consolation.

Rainy Lake Gold.

Billy Campbell came down from the mine yesterday, says the Port Francis News. He has been prospecting for gold moving along nicely up there. He expects a nice crop of gold. He has been helped to take out of the mine just before he came down.

Good reports are brought down from the "Poley mine." One shaft is down 100 feet. The vein has widened to five feet. At the surface it was only fifty-five feet. The ore in both shafts shows a fine, free, glassy, and highly siliceous properties with a fine, glassy texture.

COURT HOUSE WAR.

The West Superior people are hot after the court house, now, the efforts of the East Enders to have improvements to the extent of \$3000 made, which would hold it where it now is for five years under the state law, having evidently stirred them up to make a war to the knife. They are circulating petitions asking a special election to vote on court house removal. When signed by one-half the freeholders of the county, the board of supervisors has no option but to call an election.

AMUSEMENTS.

SAM P. JONES.

Sam P. Jones will lecture at the First Methodist church this evening on "Manhood and Money." Some of his choice sayings in this lecture are as follows: "God never made but one man and one woman, and they are nearly as scarce now as they were then. I don't think much of you can scare, hire or borrow him. I never thought of one politician in my life, and then my prayers would be for a politician to be easily saved, because I don't want to fight anyhow. I'm going to the peaceably if I can, but if a fellow jumps on me I'll punch him. I don't care for her husband. I would rather be a rascal than a fool. A man's worth is not in his pocket, but in his head. The finest men I ever knew weren't what you hate and will tell you what your character is. May a fellow be a drunkard's grave by what he eats at home. A boy 21 years old who don't know what he is fit for ain't fit for anything."

PRIMROSE AND WEST.

Primrose and West's minstrels will open their engagement at the Lyceum this evening. One of the potent facts of their success is that their announcements were always read by the public. Their entertainment this season is said to be the most original and entertaining. The company is direct and unadorned, headed by Primrose and West, is said to be the best of the kind in the city. Tomorrow afternoon a matinee will be given.

Large Attachment.

Robert G. Ingersoll will deliver his new anti-orthodox discourse, entitled "The Power of Love," at the Lyceum, Monday evening. This discourse is described by the press as the most original and masterful exposition of the age's side of the relation question ever heard on the lecture platform. The cultured direct and unadorned, headed by Primrose and West, is said to be the best of the kind in the city. Tomorrow afternoon a matinee will be given.

Pews Will Be Assigned.

At a social to be held at Pilgrim Congregational church tonight the pews will be assigned to families and individuals. Pews are let for a fixed rental. Those in attendance tonight will have an opportunity to choose their own seats. Afterwards refreshments will be served in the church parlors, and the evening will be spent in an old-fashioned Thanksgiving treat. The entertainment will conclude with a drama entitled "Hard Times," conducted by W. A. McGonagle.

LECTURE AND MUSICALS.

On Monday evening a lecture and musicals will be given at Catholic Association hall under the auspices of the altar guild. The musicals will be given by the choir. The lecture will be given by the Rev. Father. The evening will be spent in an old-fashioned Thanksgiving treat. The entertainment will conclude with a drama entitled "Hard Times," conducted by W. A. McGonagle.

THE CHARITY BALL.
Ladies' Relief Society Deserving of Generous Assistance

On Tuesday evening next the Charity ball, the annual benefit for the Ladies' Relief society, will be given at the Spaulding. It is scarcely necessary to speak of any great length on the social importance of this event. It is the leading festivity of the year and brings out all of Duluth society in its best attire. At no affair are more handsome gowns displayed by the ladies than at this. It also attracts a large number of people from outside the city, and this year's promise to bring in a larger number than ever before.

The Ladies' Relief society is more directly interested, however, in the financial success of the ball. It is the only time during the year when they call upon the people generally for assistance in their charitable work, and they feel that they must be asking too much. They give much time and labor to the work of relief throughout the year and receive no reward but the consciousness that they are doing good and relieving the sufferings of the unfortunate. But for this society many a poor family would have literally starved to death. Their work is done in a quiet and unobtrusive way, and consequently is not effective. They depend upon their funds for their relief work upon what they realize from the Charity ball. No person who considers their work and the cause for which they ask aid will return his ticket.

GRATIFYING RESULTS.

INTERESTING EXPERIMENTS WITH THE NEW STOMACH REMEDY.

Not a Patent Medicine, But a Safe Cure for All Forms of Indigestion.

The results of recent investigation have established, beyond question, the great value of the new preparation for indigestion and stomach troubles; it is composed of the digestive acids, pepsin, bismuth, Golden Seal and similar stomachics, prepared in the form of a pleasant, pleasant to the taste, convenient to carry while traveling, harmless to the most delicate stomach, and probably the most effective cure yet discovered for indigestion, sour stomach, loss of appetite and flesh, nausea, sick headache, flatulence of the heart and the many symptoms arising from imperfect digestion of food. They cure because they cause the food to be promptly and thoroughly digested before it has time to sour, ferment and poison the blood and nervous system.

Judge Frank Lives, of district court of Crookston, Minn., says: "For some time I have used Stuart's Dyspepsia Tablets with seeming great benefit. With few exceptions, I have not been free from indigestion in twenty-five years."

George W. Wessels, of St. Paul, Minn., writes: "I have used Stuart's Dyspepsia Tablets, safe, pleasant to take, convenient to carry, give keen appetite, perfect digestion."

W. D. Donlin, mechanical engineer, Duluth, Minn., says: "I have used Stuart's Dyspepsia Tablets, safe, pleasant to take, convenient to carry, give keen appetite, perfect digestion."

One box of Stuart's Dyspepsia Tablets has done its work, and I am again gaining flesh and strength."

O. E. Hanson, of Hastings, Neb., writes: "I was distressed and annoyed for two years with throwing up food, often two or three times a day; had no certainty of retaining a meal if I ate one. Four boxes of the Tablets from my druggist have fully cured me. I find them pleasant to take, convenient to carry."

Rev. G. D. Brown, Montevideo, Wis., writes: "The effect of Stuart's Dyspepsia Tablets is simply marvelous; a quite hearty dinner of broiled beef steak causes no distress since I began their use."

Over 6000 people in the state of Michigan alone in 1894 were cured of stomach troubles by Stuart's Dyspepsia Tablets.

Full-sized packages may be found at all druggists at 50 cents, or sent by mail on receipt of order from Stuart company, Marshall, Mich.

WILL SEE FOR DAMAGES.

The Northern Pacific Railroad company is to be sued at Superior for the death of the two Duluth children who were burned to death in the Steel Plant division fire on Nov. 1.

Asked to pay \$3000 for each child. The claim is that a Northern Pacific engine delayed the fire department several minutes while on their way to the fire, and that to this is due the death of the children, the department arriving too late to rescue them.

EDDY WILL HELP TOWNE.
In Getting the Red Lake Reservation Open.

Congressman F. M. Eddy, of the Seventh district, Minnesota, is in St. Paul as a delegate to the immigration convention. He is on his way to Washington, accompanied by Mrs. Eddy. One of the things which the congressman has in mind is a public building for Fergus Falls, the capital of the Seventh district. The Seventh is the only district in the state without a building of this sort, and its interests are now so great that some provision looking to the better care of the government's business there is necessary. Some time during the coming session of congress, Mr. Eddy will introduce a bill providing for an appropriation for this purpose, and he does not see why it will not pass.

Another matter in which the new congressman is interested is the opening of the Red Lake Indian reservation. His interest, however, is not so direct as that of Congressman C. A. Towne, in whose district the reservation is located, but Mr. Eddy will enter heartily into co-operation with Mr. Towne in any plan of campaign which he may undertake, having in view the opening up of the reservation to settlers.

The opening of this land to settlers will be bitterly opposed. There will be in Washington this winter, a delegation of people representing public sentiment in the northern part of the state in favor of the opening, and another delegation, made up of people from the same locality, opposing it. The first named will probably be never expressing the actual condition of the public mind with regard to the matter. The second delegation, in all probability, will represent the selfish wishes of the commissioners, and men who are holding fat offices under them. The claim is made that, had this commission proceeded promptly under the Nelson bill, and done what that bill intended should be done, the reservation would have been opened long ago; but these men are like nearly all men who get hold of a public office—they do not like to give it up.

The leadership in the fight, if one is made, will go naturally to Congressman Towne, but Mr. Eddy, whose district is interested largely in this territory, will be on hand to render any assistance in his power.

ARE YOU EVER ANNOYED by a buzzing or roaring sound in your head? Have you difficulty in hearing distinctly? Are you troubled with a continual dropping of mucus, irritating the throat and causing you to cough? Are you unpleasantly affected and accompanied with bad taste? Is your hearing less acute? If so, you have catarrh and should at once procure a bottle of Eddy's Cream Balm, the best known remedy. The Balm will give instant relief.

DELAY IT

That, it is Said, Will be
Done With Stuckey's
Trial.

Prosecution Not Satisfied
With the Indictment and
Will Hold Over.

Pleaded Not Guilty and Ar-
raigned in Municipal
Court Again.

Charles H. Stuckey appeared before
Judge Morris in district court this morn-
ing and pleaded not guilty to the indict-
ment brought by the last grand jury,
charging him with the embezzlement of
\$4500 from the State bank. He will not
be tried upon this indictment in all proba-
bility, and it is likely that he will go
through the usual municipal court rou-
tine, after which, if the court sees fit, he
will be bound over to the January grand
jury. At least that is said to be the
county attorney's plan. It will probably
be approved by Stuckey's attorneys, who
are anxious to get a speedy trial.

ON ANOTHER CHARGE.
Charles H. Stuckey was arraigned in
the municipal court at 2 o'clock this morn-
ing, before Judge Edson, on the original
complaint charging him with the larceny
of \$1000 in gold and currency, which was
in his possession as cashier of the State
bank on Oct. 16. Assistant County At-
torney McPherson appeared for the state
and Attorney Albert Baldwin represented
the defendant.

Stuckey was not compelled to plead, as
the case is not one which can be tried in
the municipal court. He stood while
Judge Edson read the complaint, and
then by agreement of the attorneys the
examination was set for 11 o'clock Dec. 2.
There was quite a little crowd of spec-
tators in the court room.

After the arraignment Stuckey, in cus-
tody of Deputy Sheriff Hans Little,
walked down Superior street to a furnish-
ing goods store, where he purchased some
shirts to replace the ones which he was
wearing. About half the people
he met stopped to shake hands with
the ex-cashier.

Stuckey will be held to the next grand
jury on the grand larceny charge and the
charge of \$4500 by fraudulent entries, an in-
dictment for which has been returned.
will be also pending. The new grand jury
meets in January.

A jury yesterday afternoon found
Joseph Wessel not guilty of stealing a
miscellaneous lot of stuff from the saloon
of Marshall & Lemaski. Judge Morris
then took up the case of Mike Perelle,
an Italian, who was accused of carrying
the person of another Italian named Pat
Caparelli with a knife. The case was
given to the jury this morning and will
be another jury could be drawn. It was
back with a verdict of not guilty.

The next case was against Erik Janik-
suta, who was indicted last term for as-
sault in the second degree committed
upon one Grant McManis with a knife at
his case was still on trial at noon.

In the civil branches of the court the
same cases were on trial which occupied
the attention of the court yesterday. The
closing arguments to the jury were being
made in the personal injury suit of Nick
Allen against the Alameda and Northern
Townsite company, and it was expected
that the case would go to the jury this
afternoon.

The case of Amanda Olson against
Freda and Wilson was still on trial at
noon, the plaintiff's case not yet being in.

DR. RICE COMING.

He Will Address the Duluth
Teachers Tomorrow.

The regular monthly teachers' meet-
ing will be held in the High School As-
sembly hall tomorrow morning at 10
o'clock. Last month the meeting was
held in the evening and an informal
social followed. This was an experiment,
but it has been decided to return to the
old way.

At the meeting tomorrow Dr. Rice, of
New York, will be present and will talk
for a few moments. Dr. Rice has quite
a reputation as an orator and his ad-
dressing the public schools having caused
great discussion and brought him into
prominence.

Superintendent Edson, of the West Su-
perior schools, will come over and will
address the Duluth teachers. A number
of teachers from the Superior schools are
also expected.

Ask Its Dissolution.

A majority of the stockholders of the
Lackawanna Iron company yesterday
filed a petition to the district court to
dissolve its corporate existence. They al-
leged that the company was formed dur-
ing the iron boom of 1892 and capital-
ized at \$2,000,000. Part of the stock was
issued at small figures and the re-
mainder has never been issued. Those
making the application are H. D. Jones
with 500 shares, M. J. Davis with 100
shares, B. W. Markell with 450 shares,
P. O. Harris with fifty shares, J. E.
Jones with forty shares and C. E. Jones
with 200 shares. The remainder of the
stock is out in small quantities. The only
property of the company consists of
leases of iron lands which contain no
iron. There are no debts, and the stock-
holders want the company dissolved.
The petition will be heard in special term
Dec. 14.

Young Lady Assaulted.

Peter E. Johnson appeared in the mun-
icipal court this morning charged with
assaulting Miss A. Lafans by striking,
kicking and throwing her on to the
ground. The alleged assault occurred
Nov. 20 at the corner of Fifth avenue east
and Fourth street, and Peter is said to
have been aided and abetted by some un-
known gentleman known to the state as
John Doe. Peter pleaded not guilty and
his trial was set for Nov. 26 at 10 a. m.
He was released on his own recognizance
to await his hearing.

City Official's Trip.

The city officials will leave tonight for

PATRONIZE HOME INDUSTRIES.

There is no one in which the industries of Duluth can be more surely built up than by the residents of the city patronizing them to the fullest extent of their ability. "Patronize home industries" is an old motto, and it is a good one and cannot be kept too much before the attention of the public. It is a regrettable fact that there are many people in Duluth who do not live up to it. They express wonder that Duluth does not steadily come to the front as a manufacturing center, and they urge that the commercial bodies should take action that will bring Duluth's advantages in that line before investors. Some of them even advocate the granting of bonuses to induce the location of manufacturers here and then they go to Chicago, New York or even the Twin Cities and purchase goods for their own use that they could have obtained from Duluth merchants and Duluth manufacturers. They are the worst enemies Duluth has towards the securing of new manufactures. If outsiders who would invest in new industries in this city, they should be made to feel that the industries already located here are not receiving good local support and are struggling hard to maintain an existence, you may be certain that they will not be favorably impressed with Duluth as a site for any enterprises that may have in view. They will go to some place with a much less favorable location, geographically—where home industries are well patronized, and where the people buy from home merchants all the goods that they require.

What is true of patronizing local manufacturers is also true of local wholesale and retail merchants. If we would build up Duluth as a wholesale center and overcome the start which St. Paul and Minneapolis have obtained in that line, our retailers must buy their goods as far as possible from the wholesale houses established here. And so in turn the people generally should buy what they require from our retail merchants. This is the way to create a large local business and keep our money in circulation at home where it will do us all some good, by building up local institutions and enabling them to extend their business and employ more people to handle it. Every dollar that is sent out of Duluth for goods that could be purchased here injures the city to that extent and directly or indirectly injures the man who makes the purchase outside. On the other hand, every dollar expended with our local merchants and manufacturers benefits every resident of the city.

If every citizen would buy all he uses from local merchants and demand that they supply him as far as possible with goods manufactured in Duluth, many struggling local industries would find the thrill of prosperity and would grow to larger dimensions, furnishing work for many more employes and thus adding to the population of the city. This would also have the effect of attracting men in other lines of industry. Seeing the prosperous condition of the existing establishments, they would be convinced that the claims made regarding Duluth's advantages are well founded. The result would be the establishment of many industries and the consequent uplifting of the city as an industrial center. Patronize home industries! It is a policy that pays.

WAS A GREAT CONVENTION.

The immigration convention which was held at St. Paul this week was a notable gathering. It brought together delegates from all the Northwestern states and from the Canadian Northwest, and the large delegations and the enthusiasm that was displayed, demonstrated the great interest which the people are taking in the subject of settling and developing the

country. The addresses were practical and forcible, and told in simple but eloquent words of the great resources of the Northwest and of the grand opportunities that are presented therein to the homeseeker. Steps were taken to effect a permanent immigration association that will carry on the work so well begun, and there is no doubt that the convention will have beneficial and lasting results and largely accomplish the important object for which it was convened.

Already the results of the gathering are becoming apparent. It is announced that one of the first steps will be the calling of state immigration conventions in all the states interested, with the exception of Minnesota. In this state the work has already been done by the convention which adjourned Thursday, so that there is no necessity for calling a state convention. Washington, however, will call a convention at once, and will be followed in turn by Oregon, Idaho, Montana and the two Dakotas. It is probable that similar action will be taken in Wisconsin, but nothing has been said. These conventions will begin at once without waiting for the meeting of the state legislatures, and by private subscription carry on the work of the propaganda. Then, when the legislatures meet, appropriations will be called for, and there is scarcely any doubt of a ready response.

The work of the convention is to be made permanent. The proceedings of the late gathering will be carefully edited, so as to weed out superfluous matter, and printed in book form, making a volume of about 300 pages. This book will be for general distribution, each state ordering and paying for as many copies as it desires. It has been thought best, too, to prepare a two-column account of the convention for supplementary publication. This account will be set up in various languages and stereotyped, and the plates sent to as many of the Scandinavian and German papers as possible, so as to extend the advertisement to the old country.

The Herald believes the result of all this energetic and valuable work will be highly satisfactory to the states and territories interested, and the efforts put forth to attract desirable immigrants for the settlement and development of the thousands of acres of vacant lands will be successful to a very large degree. In the immediate vicinity of Duluth and for several hundred miles westward and northward there is a large stretch of splendid land awaiting settlement. The sun never shone on finer agricultural lands, and it is superior to the lands farther west on account of the presence of numerous streams and lakes of clear, cool water and an abundance of timber. It has been proven also that the land from which the pine has been stripped is with-out a superior for agricultural purposes. The close proximity of all these lands to a market like Duluth and the neighboring towns should receive the attention of settlers, who will find in this fact one of the chief elements of success.

THE CONGRESS AT OMAHA.

The annual meeting of the trans-Mississippi congress will open at Omaha on Monday next, and fully one thousand delegates are expected to be present. Duluth is to be well represented, and The Herald learns that the delegates from this city will extend an invitation to the congress to meet here next year. It is a gathering of representative business men of the West and its object is to discuss topics of interest to the Western countries and to formulate a plan for the increased commercial prosperity of the great empire west of the Mississippi. George Q. Cannon, of Utah, will preside over the congress. Its first business is the introduction of resolutions and their reference to the various committees, and this is followed by a discussion of important topics lasting two or three days.

Among the subjects to be considered are freight rates and discriminations; rail and water communication between Western cities and the seaboard; irrigation of arid lands; the annexation of Hawaii; the laying of a cable to Honolulu; the Nicaragua canal; the silver question, which is regarded by this congress as a business proposition and not a political question; the improvement of waterways and deep water harbors, as well as the construction and maintenance of levees on the Mississippi and its tributaries. The construction of a deep waterway from the great lakes to the Atlantic ocean will probably come up for discussion, because many of the Western states would be greatly benefited by the carrying out of this project, which would give them an outlet via Duluth for the shipment of their grain and other products to the foreign markets without breaking bulk after loading on the vessels at Duluth.

Other subjects for consideration will be the proposed passage of a national bankruptcy law by congress; methods for the relief of agricultural depression; the restriction of immigration, by shutting out the criminal and pauper classes; the disposition of public lands, so that they will fall into the hands of honest settlers, and the admission of territories to statehood. All these subjects are of vital importance to the West, and the conclusions reached by the congress regarding them will be embodied in the report of the committee on resolutions. Owing to the presence of hundreds of prominent Western business men, the gathering will be of great importance to the West, and they have a great influence in shaping the course of legislation at Washington affecting the West.

The political complexion of the Kentucky legislature probably depends upon the result of a special election to be held in Louisville to fill the vacancy caused by the declaration of Mr. Carroll, who was speaker and Democratic leader of the last house, but had no opponent at the polls, because his Republican opponent took his name from the official ticket at so late a period that it was impossible to put another nominee before

the people in season. Under these circumstances, Mr. Carroll would not accept the election, and another contest will take place, in which Mr. Carroll will have the strongest Republican opponent which can be selected. If the Republicans succeed, they will have a majority on joint ballot, with the help of the Republican Populists.

The recently retired lord mayor of London is spoken of by some English papers as a notorious "guinea pig." By this Englishmen do not mean that the lord mayor was a small animal living in a hutch and very fond of eating lettuce, but that he was a financier who had become a professional company director. In London there are a large number of men who lend their names to any kind of a scheme that promises them profit, on condition that they are made directors. The fee of directors is usually a guinea a meeting, and the professional directors whose directorates meet frequently draw a very considerable income from this source alone. To such directors the wits of the stock exchange have given the name of "guinea pigs."

The exposition at Paris in 1900 will be a grand affair and may eclipse the Chicago fair. The finance commissioners of the French exposition say that they cost something over \$30,000,000 to get ready. This exceeds the construction expenses at Chicago by two or three millions. The Paris commissioners propose to meet their expense by issuing \$2,500,000 lottery bonds, of the value of \$4 each, entitling the holder to twenty tickets of admission, the right to 25 per cent reduction in admission to entertainments within the exposition, and a reduction in railway and boat fares. Then at the close holders of tickets will participate in the distribution of cash prizes, amounting to \$1,500,000.

The Mankato Free Press says: "The Duluth Herald is still trying to make itself believe that Congressman McCleary is a gold standard advocate. But in this the wish is father to the thought and it is having a hard time to convince itself of the untruth." The Herald is not trying to make itself believe any such thing. It is compelled to believe it by Mr. McCleary's own attitude, because he opposes a return to bimetalism and upholds the arguments of those who honestly admit they believe in a single gold standard. He is not so honest as they are.

Senator Gorman has again explained his recent defeat. His last explanation is that there was no Democratic revolt in Maryland. The state simply went Republican because there are more Republicans in it now than ever before. A great many Democrats, he admits, have gone over to the Republicans, because the latter favor the policy of protection. This conclusion will hardly be acceptable to the administration at Washington.

A New York dispatch says that the committee of citizens recently appointed under the auspices of the chamber of commerce to raise a guarantee fund of \$250,000 for convention purposes is diligently at work securing the fund. The committee is exerting itself in the direction of getting the national Democratic convention to meet in New York or St. Paul. It reports that results are satisfactory.

The proprietor of a New York restaurant who uniformed his girls in bloomers, has been arrested for maintaining a nuisance. The bloomer waitresses were such an attraction that they blocked the street. What there is about a short skirt and a pair of leggings on a waitress to cause men to block the street, says an exchange, is more than the average woman can make out.

Mayor Strong, of New York, said at a recent banquet: "I have been told by some people that I am not a very good politician. I realize that the statement is true, but I shall go on to the end of my term acting as I think best for the people of this magnificent municipality." If all mayors adopted similar principles there would not be so many cases of bad municipal government.

The Brooklyn Eagle says it is probable that one-third of the delegates to a Democratic national convention in New York would be hanged before they had been in the city forty-eight hours.

A New York church. The Boston Transcript thinks that when they see that the name of Archbishop Laud is printed in Land in some of the papers that note their existence, perhaps they will realize the full extent of American indifference to the claim of "legitimacy."

The New York Post thinks that the independent vote will destroy Republican expectations next year. This is a case where "the wish is father to the thought." But the Post's hopes are likely to be disappointed. The independent voter will hardly discover any reason next year to vote on any side but the Republican.

Secretary Morton wants to know "why should President Cleveland be opposed to a third term more than a bank president?" We give it up, inasmuch as Mr. Cleveland's principal supporters now are the Wall street bankers.

Harriet Monroe, the poetess of Chicago, says she draws inspiration from Lake Michigan. Other people draw typhoid fever from the same source.

New York, Chicago, Pittsburgh and St. Louis are hustling to secure the national convention next year, and San Francisco is also actively at work.

The ameer of Afghanistan is burning up his subjects because his son failed on a diplomatic mission. This introduces a new feature in diplomacy.

Some of the Duluth men who went to the immigration convention at St. Paul should have stayed at home.

HIGH SCHOOL NOTES.

Society Meeting, Rehearsals and Matters of Interest.

Suitable exercises in memory of the late Samuel F. Smith, author of our national hymn, were held on Monday morning. A sketch of his life was read, after which the entire school sang "America."

On Monday afternoon the sophomores held their regular class meeting at which they set aside \$10 from their class fund with which to start their senior year. A committee to distribute donations for Thanksgiving was appointed and also one to request the weather man to "let the sky rain snow," because it is their ardent desire to give a sleigh riding party as soon as possible.

The Banjo club held its usual practice Thursday afternoon, at which three new members were received.

On Friday the Musical society held its rehearsal and practiced the songs to be sung at the concert Wednesday evening, in the Assembly hall. Tickets for this are free and may be obtained in the book room of the High school from Mr. Boyd, between the hours of 9 and 12 a. m.

The public library society held its meeting yesterday afternoon at which the program was as follows:

Piano duet, by Betty Broome and Josephine Carver.
Accompanied by the Musical society.
"Critics' Report," Marion Eastwick.
Debate—"Resolved, that England's position in regard to Venezuela is justifiable."

Affirmative—Constance Wilner, Arthur Berg.
Negative—Mabel Bartlett, George Lett.

Essay—"Eugene Field," by Eugene Field.
Recitation, by May Parker.
Oration, by Courtland Holliday.
Essay—"The New Woman," by Harriet Pratt.

During the week Professor Wirtzbrecht, principal of the mechanical arts, high school of St. Paul, visited the school.

The first football team of the high school seems no games ahead, the truth of the matter being that all the teams around here are afraid to play it, but the second team keeps up the interest and yesterday afternoon played the West Superior boys.

The Sons of the Revolution of the state of Minnesota have offered to send to each high school in the state a framed facsimile copy of the Declaration of Independence under the following conditions:

That it shall be read to the assembled school Friday, Nov. 29, 1895, the anniversary of the date on which Great Britain recognized the independence of the United States; that it shall be hung in a conspicuous place where any scholar may read it at any time; that it shall remain in the school and be under the direct charge of the senior class.

The object of this is to instill patriotism in the young men and maidens of this generation.

A few years ago the state was laughed at and today Minnesota is one of the great coal producing states in the Union. It may be the same way with coal. Bill Clark in the Toils Again Charged With Stealing Chickens.

Water Company Says Manager Jacoby, Has No Fight on Hand.

Union Thanksgiving Service to Be Held By the Churches.

Bill Clark was arrested for chicken stealing again yesterday. Charles Landin, living on the corner of Sixty-fourth and Fairmount streets, reported at police headquarters that he was missing twenty-six chickens which had been taken on Saturday night.

Humors of the loss of other chickens have come to the knowledge of the police, but no definite charge has been made. Suspicion rested on Clark, who was arrested about a year ago for a like offense.

Officer Briggs paid Clark a visit at his shanty near the bay and found nineteen chickens under the bed dressed and ready for Thanksgiving. The chickens were seized and also Clark, who was taken to Duluth this morning for preliminary examination. He pleaded not guilty and his trial was set for tomorrow afternoon.

IS NOT FIGHTING.
Manager Jacoby, of the West Duluth Water company, says that there is no war between his company and the board of health. Perfectly amicable relations exist between the parties, and the only demands made by the health department are that the hydrants be boxed so as to keep the manure in place. Mr. Jacoby says the company has always taken this provision in the past, and will certainly do so this winter. He says that he has had a fight in his mind, but he does not intend to do it, as the board of health has acted fairly in the matter and he is not going around with a chip on his shoulder, as indicated by an article in the News Tribune.

THANKSGIVING SERVICE.
The Presbyterian, Methodist and Congregational churches of West Duluth will hold union Thanksgiving services at Westminster church at 10:30 on Thanksgiving morning. Rev. C. H. Patton, of the Congregational church, will preach the sermon, and special music will be provided.

WEST DULUTH BRIEFS.
De Witt's Code Corp. Little Early Risers and Witch Hazel salves at Spencer's. L. A. Barnes returned this morning from St. Paul.

Alderman Mitchell did not go to St. Paul with the aldermanic visitors.

Rev. S. A. Jamieson preached at Oloquet yesterday.

Mrs. J. McGrath, who has been visiting Mrs. M. McNamee, has returned to her home at White Bear.

O. Westwig and Andrew Legstven have gone to Milwaukee.

George Patterson, employed in the rolling mill of the Duluth Manufacturing company, had his eyes badly scorched by flying sparks and cinders.

The order of Railway Conductors will give a dance at two Harmon's on Thanksgiving night, and an excursion train will be run from Proctorville, leaving that place at 7 p. m. and Duluth at 8 p. m.

\$100 REWARD \$100.
The readers of this paper will be pleased to learn that the man who has been charged with the murder of a woman, has been found guilty and sentenced to life in prison.

Most of the News Bullish Today and Wheat Prices Advanced.

The Increase in the Visible Supply Satisfactory to the Bulls.

Large Russian Shipments and Gold Exports Were the Bearish Factors.

Wheat opened higher this morning and ended strong throughout the session, but speculative trading was dull and narrow. Early cables were weak, announcing a large Russian shipment, and there were reports of more big gold shipments to be made this week, but later cables were more encouraging. London reported wheat on passage steady. At Liverpool, spot wheat was quiet and futures steady and higher. At Paris, wheat and flour were quiet, and the wheat market was quiet. The wheat market was quiet. The wheat market was quiet.

AFTER IT

Mrs. John Nathan Wants the Reward For Capturing C. H. Stuckey.

She Arrived Here Last Saturday and Has Consulted An Attorney.

The Council May Elect a Successor to Alderman French Tonight.

Mrs. John Nathan, of Perley, Wis., to whose agency Charles H. Stuckey owes the fact of his capture, arrived in the city Saturday and immediately consulted an attorney with the purpose of applying for the \$1000 reward offered for the capture of the defaulter, earlier by the State bank. This afternoon she held a long consultation with Attorney Davidson in regard to the matter.

As assigned I am not in a position to say how good any claim against the bank may be," said Mr. Davidson this morning, in answer to a query if the reward would be paid as advertised.

THE COUNCIL MEETING.
Successor to Alderman French May Be Chosen Tonight.

At the council caucus this afternoon S. P. Harrison will probably submit the proposed proposition to take the gas and water bonds at a 4 per cent. In that case the ordinance authorizing the issue of bonds at 4 1/2 per cent, which passed its first reading, will be amended and finally passed. If no proposition is submitted the original ordinance will pass, as the delay is out of the question. City Clerk Richardson has been receiving a number of inquiries in regard to the bond issue. In all probability a successor to the aldermanic chair vacated through the death of Alderman French will be elected tonight and numerous candidates are in the field. Ira J. Richardson, who is a cousin of the Mayor and well known in the ward, appears to have a walk-away for the vacancy. He is at present on jury service, but his friends are carefully nursing his boom, and voluminous petitions signed by Seventh ward business men will be introduced.

L. A. Barnes is also a candidate, and his trip to St. Paul with the officials may succeed in obtaining him a few votes. J. Mallory's name has been prominently mentioned, but he himself has not taken an active part in the campaign. The ex-convict term covers barely four months. Alderman Cox is on hand at the caucus with his Garfield Avenue victrola which is championing. The matter will be again brought up at the council tonight, the slightest change of its success, will come before the council tonight. There is talk also of the armory and the steam ferry.

SAVED THE CHILD.
Mrs. Jordan's Daughter Narrowly Escapes Bad Burning.

Mrs. Jordan, of 123 East Second street, averted a serious accident by her bravery and coolness yesterday afternoon. Mrs. Jordan was sitting in her parlor sewing while her 5-year-old daughter was playing in front of the grate fire. A spark flew against the dress of the little girl and in an instant the gauzy fabric was a sheet of flame. The mother rushed to her rescue and rushing to her rescue succeeded in tearing off the little dress. In doing so Mrs. Jordan was badly burned about the hands and medical attendance was necessary to dress the wounds. The child escaped without injury, but owes her life to her mother's nerve.

SUPREME COURT DECIDES.
Loan and Trust Company Stockholders Liable.

Among the decisions handed down by the supreme court a few days ago was one in the case of the International Trust company, appellant, vs. American Loan and Trust company, respondent, wherein the decision of the district court is partly reversed. Following is the syllabus:

An annuity safe deposit and trust company organized under laws 1883, chapter 107 (General Statutes 1894, sections 244 and 245) is not a corporation "embracing banking privileges" within the meaning of the constitution of Minnesota, article 10, section 1. That term refers only to banks of issue or circulation provided for in article 9, section 13. Hence the stockholders of annuity safe deposit and trust companies are liable, under article 10, section 13 of the constitution for corporate debts to the amount of stock held or owned by them.

Where a general assignment of all the corporate assets for the benefit of creditors has been made either under the assignment law of 1878 or the insolvency law of 1881, creditors, who subsequently commence an action under General Statutes 1894, chapter 76, section 5 (General Statutes 1894, section 589) are entitled, as a matter of right, to have a receiver appointed to supersede the assignee and take the corporate assets out of his hands. But, although they have no right to have a receiver appointed, they may maintain such an action for the purpose of forcing the personal liability of stockholders, such liability being one which cannot be enforced in the assignment proceedings.

Order sustaining demurrers reversed.

Order refusing to appoint a receiver affirmed.

PRETTY AND ATTRACTIVE WOMEN.

Their Good Looks Not a Secret.

(SPECIAL TO OUR LADY READERS.)
No matter what country she belongs, or whether she be black or white, as a woman she desires to look well.

Women know the influence of beauty on men; men rarely admire a beautiful invalid, but they do admire a woman in whom is blended good features and perfect health.

There is no secret about a woman's beauty; it all lies in the care she devotes to herself, to removing from her system all poisonous impurities, and keeping at bay those fearful female diseases.

The flashing eye, elastic step, and brilliant complexion are never companions of a womb trouble; only the distressed expression and aches, pains, blues, faintness, dizziness, bearing-down feeling, etc., keep it company.

Lydia E. Pinkham's Vegetable Compound removes female troubles promptly, and cleanses, invigorates, and consequently beautifies, the form of woman. Women, the world over, pay homage to it, and praise its discoverer. Your druggist sells more of it than all other female medicines.

WINNIPEGGERS COMING.
A Winnipeg letter says that at the annual meeting of the Manitoba Curling association of the Royal Caledonian Curling club it was unanimously decided to send the full number of rink which will represent the association to the international bantam, held this season in Duluth. It was further voted to attend the bantam to be held later in St. Paul, with perhaps half a dozen rinks. It is certain that some fifty or sixty rinks of Winnipeg who are enthusiastic curlers will go to watch the game.

A SINGULAR CASE.
FAINTED AWAY IN THE STREETS OF DULUTH.

Mr. W. D. Tomlin, Inspector of Steam Boilers and Well-known Mechanical Engineer Makes an Interesting Statement.

There are few diseases so common or so little understood as those of the stomach. People endure indigestion, sour stomach, poor appetite, headaches and constipation for years, because they do not know the cause of their troubles, and they let the matter go on indefinitely.

It is certainly true that a weak stomach and poor digestion are the certain forerunners of nearly every serious, fatal disease. The first symptom of consumption is indigestion and loss of appetite. Nervous weakness, acid stomach, poor digestion; most cases of so-called heart disease are not so, but simply this, the heart is directly above the stomach and the formation of gases in the stomach, from fermenting half-digested food, causes pressure on the heart, sometimes resulting only in palpitation and sometimes fatally. Stuart's Dyspepsia Tablets, the new remedy for stomach troubles, has cured hundreds of cases.

W. D. Tomlin, the well known mechanical engineer, makes the following statement: "I began to feel that I was receiving such permanent benefit from the use of any article in such a manner as I have never known before. Stuart's Dyspepsia Tablets it seems to me the fact should be made public. I was in Michigan, Mich. I was a strong, vigorous man, weighing at least 175 pounds. I called to see the waterworks and other steam plants, being always interested in machinery. Coming home, I took up my work again as an inspector of steam engines. When the hot weather set in I was again troubled with indigestion and bowel trouble. This continued for several intervals, until one day in July I fainted away on Superior street in Duluth, and apparently without any warning. I was really sick and for weeks never dreamed that my sickness was indigestion or dyspepsia. I began falling away in flesh from 175 to 142 pounds. This summer I was no longer able to do my work, and I was brought on diarrhoea as I have never suffered from before."

One box of Stuart's Dyspepsia Tablets has done its work and I am again gaining flesh and strength. I may add that my sickness has never been caused by drinking, as though I am over 50 years old I have never taken my first drink of whiskey or lager beer. My system suffered from too much fatty substance and from too rapid eating. My duties have driven me for seven months in each year. I suffered from the results of a too fast official life, induced by trying to accomplish too much work in one year. Respiry yours.

It troubled with any form of indigestion, sour stomach, chronic diarrhoea, loss of flesh and appetite, nervous, run down from overwork or excitement, Stuart's Dyspepsia Tablets will restore you to the only natural way, namely, by giving vigorous digestion, preventing acidity and fermentation, increasing flesh and appetite. Over 100,000 people were cured in Michigan alone in 1894 from stomach troubles by the use of Stuart's Dyspepsia Tablets. Druggists sell them, full sized package at 50 cents, or mailed on receipt of price by addressing Stuart company, Marshall, Mich. Ask your druggist also for book on stomach diseases, giving valuable advice and history of many cases.

WILL DOUBLE TRACK.
In keeping with the general line of substantial improvements being made by the Duluth and Iron Range to care for their traffic in proper shape, the contract for double tracking their line from Allen Junction to Iron Range, a distance of about ten miles, has been let to Nick Ellsberg, who started a crew at work on Monday. Says the Virginian, "The work is well advanced and it is expected that the proposed highland cut off branch will be built this winter, which will permit the hauling of forty cars or instead of twenty-six as a train load."

Wife—Here's an account of a man who shot himself rather than under the influence of indigestion. Husband—The fool! Why didn't he take De Witt's Little Blue Pills? I used to suffer as bad as he did before I commenced taking these little pills. S. P. Boyce.

STRONGLY OBJECT.

Policemen Will Oppose a Cut in Salaries.

About twenty-five policemen met Saturday afternoon at the central station and discussed the threatened cut in salaries. The proposition of the Taxpayers' league and the joint committee to cut a slice from the \$65 a month met with great disapproval. The plan of sending a committee to demonstrate their impotence to the present remuneration was rejected because the officers thought it inconsistent with their dignity to go to an unofficial body. It was reported that the mayor and aldermen are opposed to a further cut and this gave some measure of reassurance.

As the case was presented by one of the officers, the men work ten hours a day, seven days in the week and 365 days in the year with possibly a ten days' vacation. On alternate months the patrolmen are on night duty. The outfit complete costs \$200. Added to the expense of keeping a family, the uniform must be kept clean and neat and deficiencies promptly replaced, and when the liability to sickness from exposure is taken into consideration the \$65 a month seems decidedly insufficient.

ROUCHEAU MINE SOLD.
Lease of the Property Sold For \$60,000.

The Mesaba Range says the RouchEAU Ray Iron Land company has disposed of its lease on the lands lying in the township extending from Biwabik almost to McKinley. This tract includes what is known as the RouchEAU mine, adjoining the Canton on the south. A big body of high grade ore has been proved up on this property. It is understood that the consideration of the sale was \$60,000, and that the minimum annual output of ore is to be 60,000 tons on a basis of 55 cents per ton royalty. It is an underground proposition. Shipments will be begun next season.

REDPATH CONCERT COMPANY.
The Redpath Grand Concert company will be at the First Methodist church on Friday evening and will give a concert of the most popular music. The company consists of Miss Maud Powell, the talented soprano; Miss Maud Powell, the talented head of her own concert company; Clara Murray, the harpist, who played here last winter with Mrs. Scott-Siddons; and Rudolf von Scharp, a pianist, who is especially eminent in this art. This will undoubtedly be the finest musical entertainment which Duluth people have had in some time.

DRUG STORE ENTERED.
Cash Register at Smith's Place Carried Away.

Burglars entered Smith's drug store at First avenue west and Superior street some time after midnight Saturday night and carried off the cash register containing about \$10 in small change. Entrance was obtained by breaking in the little side door off the alleyway on Superior street. The register was taken bodily and was found empty yesterday morning in a vacant lot on West First street. The patrolman on duty Saturday night noticed nothing suspicious in the fact, concluding that the door had been forgotten locked. The door had apparently been kicked open.

A PLEA FOR THE FIREMEN.
To the Editor of The Herald:

Will you kindly give a little space in your valuable paper for a word of protest against the proposed cut in salaries proposed by the Taxpayers' league. Such an action represents a gross and a careless consideration of municipal government. The firemen are greatly interested in the proposed cut in salaries, which would mean a reduction of public money, and close attention to the ways in which expenses can and should be reduced. It is a matter of the danger point to take Duluth risks, for good reasons. We are now proud of our fire department, and any reduction in salary, which would cause half-disciplined, efficient men to resign positions, or even to desert, would be a disaster to the city. The value of many more thousands of dollars than it would bring into the treasury. Insure of reduction, it would mean that in this branch of the city expenses would be increased, now being saved. The firemen are obliged to wear their own uniforms complete, helmets, rubber boots, etc., and the bill is small during the year. Citizens generally do not understand, and therefore do not appreciate, the work of the firemen and the danger of a life fireman lead, and that intelligent, industrious, sober men, who are engaged in the service of the city. There is no other department of city service or government which employs such a fine set of men. Think well of this, taxpayers, and vote to give the firemen more rather than less pay.

TICKET BROKERS' ANNUAL.
The annual convention of the Guarantee Ticket Brokers' association was held at Buffalo last week. It has now 20 active members. The following officers were elected for the ensuing year: J. W. Yarnes, president, Cleveland, Ohio; W. W. Marmaduke, first vice president, Washington, D. C.; H. Mitchell, second vice president, St. Louis, Mo.; J. C. Greenwald, third vice president, San Francisco, Cal.; J. R. Fleischman, treasurer, Buffalo, N. Y.; S. A. Fleischman, secretary, Chicago, Ill.; executive committee, Louis Meyer, chairman, Detroit, Mich.; J. Joseph Chinnatt, Ohio; T. W. Crowe, Kansas City, Mo.; M. Schubach, St. Louis, Mo.

If suffering with piles, it will interest you to know that De Witt's Little Blue Pills will cure them. This medicine is a specific for all the troubles of the bowels, and if instructions (which are simple) are carried out, a cure will result. We have tested this in all the most desperate cases, and always with like results. It never fails. S. P. Boyce.

Are most competent to fully appreciate the purity, sweetness, and delicacy of Gail Borden's Soap, and to discover new uses for it daily. In the form of washes, solutions, etc., for dissolving inflammations, irritations, and weaknesses of the mucous membrane, it has proved most grateful.

KIRK'S FRIENDS.

Mrs. J. S. Osgood, Lester Park, Writes Him an Important Letter.

Mrs. J. S. Osgood, of Lester Park, Minn., writes as follows: "I returned last week from a delightful summer visit in the East, and of course found my house in a dreadful condition, just as they always are when one leaves home for a time. My husband brought home some of the small sample packages of Kirk's Rosin and I used it for scrubbing the floor and cleaning the joint and woodwork, and my house looks as bright as a dollar. If I do say it myself, it is so inexpensive compared with the other washing preparations, I am very careful to use Kirk's Rosin and I shall have no rival in my house hereafter."

AMUSEMENTS.
ROBERT G. INGERSOLL.
Tonight Robert G. Ingersoll will deliver his new lecture on "The Foundations of Faith," at the Lyceum. This is accounted his ablest anti-orthodox discourse. In this discourse the apostle's doctrine of religion is reviewed in Col. Ingersoll's most impressive and convincing style. The New York and Chicago critics, in what they call the "Chicago Daily Tribune," are especially emphatic in their praise of this new work of Col. Ingersoll, as a literary and oratorical masterpiece.

"MY WIFE'S FRIEND."
The attraction at the Lyceum theater for three performances, commencing with the Thursday matinee, is the new and comedy entitled "My Wife's Friend." The play is the work of Fred Marsden and may be classed in the school of comedy made popular by Augustin Daly's clever adaptations from the French and German comedies, such as "The Night Owl," etc.

THE REDPATH CONCERT COMPANY.
The Redpath Grand Concert company will be at the First Methodist church on Friday evening and will give a concert of the most popular music. The company consists of Miss Maud Powell, the talented soprano; Miss Maud Powell, the talented head of her own concert company; Clara Murray, the harpist, who played here last winter with Mrs. Scott-Siddons; and Rudolf von Scharp, a pianist, who is especially eminent in this art. This will undoubtedly be the finest musical entertainment which Duluth people have had in some time.

AFRAID OF LEARY.
Conductor Hickey Says His Life is in Danger.

Dan E. Hickey, a conductor on the St. Paul & Duluth road, who runs between St. Paul and Duluth, has sworn out a warrant at St. Paul for the arrest of D. J. Leary, formerly a station agent at Bald Eagle Junction and a charge of threatening murder. Leary has been for some time carrying a large gun which he intended to use in the execution of Hickey whenever he should find him.

Leary went to the St. Paul Union depot the other day and was talking to his man there, but he failed to find him. The would-be murderer claims that "Hickey broke up his domestic relations."

The Superior Gamblers.
On Saturday evening two more gambling houses in Superior were pulled, and the proprietors, John J. Hickey, of 74 Tower avenue, and Joe Ennis, of 402 Tower avenue, together with George White and Ed Ennis, were arrested. The latter was arrested in the raid of two or three days ago.

After the arrest of John Ennis and Charles Moschowski a few days ago they made the statement that they had "put up" to Chief Lutton for the privilege of prosecuting them for criminal libel, but they claim to be prepared to prove what they say. An aldermanic investigation may result from it.

Law Students Organize.
The Law Students' association of Duluth has organized. The first meeting was held at a meeting of the local young men who are struggling for admission to the law. The association will hold meetings every Monday evening at room 7, in the Trolley building. At each session papers on legal subjects will be read and discussed, and prominent members of the bar will lecture there. They also held their first meeting.

Burned to Death.
Shortly after midnight Sunday morning fire broke out in the Eastern Minnesota boarding house at Superior, located on the corner of Second and Third streets. They were entirely destroyed, the firemen being unable to get water to them. Peter Kennedy, one of the floor shed employees, turned in about 12 o'clock in a strange room. He was unable to get out and his charred body was found in the ruins yesterday. The loss on the house is estimated at about \$500.

A CHILD ENJOYS.
The pleasant flavor, gentle action and soothing effects of Syrup of Flgs, when in need of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use; so that it is the best family remedy known, and every family should have a bottle on hand.

Augusta C. Lafans Sues the
Gas & Water Company
For \$5000.

Dug a Trench Under Her
and Beat and Abused
Her.

The Duluth Aldermen Speak
in High Terms of
St. Paul.

Augusta C. Lafans has begun an action for \$5000 against the Duluth Gas and Water company. In her complaint she alleges that some time ago she rented a house on Fifth avenue east, and that she has paid her water rent up to Jan. 1. She claims that without her knowledge her landlady came around and tapped the pipes running into her house to supply an adjacent house.

The water company discovered it, and came around to shut off the water unless she would pay for the house thus being surreptitiously supplied. She refused, and four of the company's men attempted to shut off the water. She sat down on the step and they dug a trench under her. She claims that they struck her and kicked her and rolled her six times into the gutter. She seeks \$5000 damages. Thomas A. Wood is her attorney.

ST. PAUL ALL RIGHT.

So Say the Aldermen in Telling of Their Visit.

Those of the city officials who went on the trip to St. Paul showed up at the city hall this morning with the appearance of being very tired. Every one had a good time. The party, twenty-one strong, returned this morning. The story of the trouble as told by one of the merry makers is as follows: "We had a device of a time going down on the train. Nearly all the boys turned into the berths and as soon as they were nicely undressed and asleep we pulled them out and made them march up and down the aisle with their scanty garments fluttering in the breeze. At one time, there was a pile of aldermen and officials on the floor which reached nearly to the roof of the car. There wasn't enough clothes on the whole tribe to make a full suit for the summertime."

"Alderman Harwood did not go to bed at all, but sat in the smoker and thought about his watch which he left in Milwaukee. Alderman Lerch wanted to play horse, but we wouldn't let him. There were several 'kings' and a queen, of soda and such like on board. We were met at the depot and escorted to the city hall where we made our headquarters and had breakfast."

"Then we were driven to the workhouse and after lunch we went around the public buildings. In the city hall every office opened a box of cigars and we did not skip an office. In the evening we went to the theater. Sunday morning Alderman Harwood went to church and we went in the street cars to the Soldiers' home. We had dinner right in the cars—to let the people see how the Duluth officials ate. It was a great curiosity. Little boys ran alongside the cars and cheered. We went right to the train from the theater last night and we were too tired to fool much coming home. Some one said we went down to study their water system, but I didn't see any. They wouldn't take our money down there. It was no good. St. Paul is all right. Whoop!"

Obstructed the Street.

Marcus S. Komars was arraigned in the municipal court this morning on a complaint charging him with obstructing the streets. It appeared that Marcus had been moving a dwelling and having jugged the edifice to the corner of First street and Twenty-fifth avenue west, he let it remain and obstruct traffic. Marcus explained to Judge Edson how it happened and was released with a suspended sentence and a lengthy admonition. As soon as Marcus had been disposed of the drunks were given a chance, and Jacob Peterson and A. Gray, neither of whom had anything to say, were taxed \$10 and costs for filling up on hot whiskey. William Farrell, charged with vagrancy, was voluble with explanations and was discharged.

Look out for cheap substitutes! Beware of Dr. Bull's Cough Syrup. It has stood the test for nearly fifty years.

City Attorney Cant Not Afraid
of His Job.

City Attorney Cant smiled this morning when shown a copy of the report from Minneapolis that there is a legal doubt as to his right to hold the city attorneyship while a member of the legislature. "It doesn't touch me in any way," he said. "I was not a member at the time of my appointment and even if I had been the constitutional provision regarding the right of a legislator to fill another office until the expiration of the term for which he was elected would not apply. It does not mean a municipal office. The law was framed to prevent a man from being in a position to influence legislation regarding his position."

Lecture and Musicales.

There will be a lecture and musicale under the auspices of the altar society of the cathedral at Catholic Association hall this evening. The following musical program will be rendered: Vocal solo—Selected. Miss Anna Farrell. Piano solo, "Second Mazurka"—Godard. Miss Lynn. Vocal solo, "Garden of Sleep"—Lestare De Lara. Miss James McAuliffe. Song, "Good Night"—Currello. Cathedral Quartet. Right Rev. Bishop McGoldrick and Monsignor Nugent will be present. After the program there will be an informal reception, and all present will have an opportunity to meet Monsignor Nugent.

The Charity Ball.

Tomorrow evening the annual charity ball will be given at the Spaulding. The ladies' Relief society earnestly hopes that it will be a complete financial success, as upon the funds realized depends the work which the society can do this winter. The social side is bound to be successful, as it has always been and it will undoubtedly be an affair of great taste and beauty.
